

GOVERNOR'S BILL  
PASSES ASSEMBLY

Act Introduced Because  
of His Message Is  
Rushed Through  
Lower House.

## THE SENATE'S AX

Kills Cigarette Bill—Adopts  
Report of Committee  
on Ad Valorem Rail-  
way Taxation.

(Special to The Gazette.)  
Madison, Wis., May 12.—The  
bill prohibiting railroads from in-  
creasing freight rates from the sched-  
ule of June 15 last to conform to the  
special message of Gov. La Follette  
of last Friday, passed the assembly  
today by a vote of 56 to 34. The  
only debate was on motion of Ray  
to re-referred bill to committee in or-  
der to give the railroads a hearing  
which was defeated.

Kill the Bill  
Anti-cigarette bill passed by the  
assembly was killed in senate by vote  
twenty to ten after discussion in  
which Senators Bird and Klondan  
spoke for bill and Merton against it.

Taxation Bill  
The senate adopted the report of  
the conference committee on the ad  
valorem railway taxation bill and  
the bill, which now includes the tax-  
ation of railway bonds was concurred  
in and will become a law on receiv-  
ing the governor's signature. The  
bill limiting the charges of the rail-  
road companies for the transporting  
of coal was killed in assembly.

Money for Hospital  
Bill appropriating one hundred  
thousand dollars for violent insane at  
Northern hospital, Oshkosh, passed  
the assembly.

LABOR TROUBLES  
FROM ALL OVER

Chicago, Denver and Omaha Have  
Difficulties with Organ-  
ized Labor.

Chicago, May 12.—Open de-  
clarations of defiance marked the develop-  
ments today in the strikes of the  
Deering Harvester works, and em-  
ploys of laundries. Unrest among  
the men is increasing, chafing under  
the police restraint. Turbulent  
meetings were held today and ser-  
ious trouble is anticipated. The po-  
sition in the stock yards is un-  
changed and beyond the walk-out of  
a number of union men as individ-  
uals, who refused to work with non-  
union men.

Bakers Strike  
Chicago, May 12.—A sympathetic  
strike of 4,000 cooks, waiters and  
bakers all downtown lunch rooms is  
threatened as a result of the strike  
of 400 colored waiters employed in  
seven restaurants operated by the  
Kohlsaat company. Meetings to dis-  
cuss the advisability of calling all  
the men out is to be held this even-  
ing. It is said the Kohlsaat is the  
forerunner of a big fight by the em-  
ployers on restaurant help.

Denver in Trouble  
Denver, May 12.—A general strike  
of sixteen thousand building trades  
workers failed to materialize today,  
about six hundred of the men are  
striking. A general strike not ex-  
pected.

At Omaha  
Omaha, May 12.—The strike situ-  
ation today is quiet. Both sides are  
awaiting the result of tonight's joint  
conference. The laundries will re-  
open before the end of the week.  
Almost all the restaurants re-opened.

HORSE RACING AT

ident of the association; D. H. Pol-  
lock, Beloit, secretary, and H. W.  
Buckbee, Rockford, Ill., superintend-  
ent of speed.

Arkansas Is Stuck.  
Washington, May 12.—Lieut. Ches-  
ter, one of the watch officers of the  
monitor Arkansas, arrived at the navy  
department from St. Genevieve, where  
the vessel is lying, and reported that  
in his judgment it will be impossible  
for her to make her way down the  
Mississippi till next spring, unless an  
unexpected and unseasonable flood  
occurs.

JEALOUSY OVER GIRLS  
IS CAUSE OF MURDER

Young Man Is Shot While Returning  
From a Visit to His Sweetheart  
at Hemlock, Ind.

Kokomo, Ind., May 12.—Bad blood,  
which long has existed between the  
boys of the towns of Oakford and  
Hemlock, largely resulting from jeal-  
ousy over girls, is believed to be re-  
sponsible for what are now supposed to  
be two cold-blooded murders.

The last victim is Louis Yager of  
Oakford, who was last seen alive by  
his sweetheart, Miss Myrtle Finley,  
who is a Hemlock girl. He drove away  
in his buggy, but when the horse ar-  
rived at Yager's home the young man,  
who was only 23 years old, was found  
huddled in a heap on the seat of the  
vehicle, a bullet through the brain  
having caused death.

Coroner Harrison said that two at-  
tempts had been made recently to  
waylay Yager and that threats had  
been made to kill him. The young  
man is prominent in the town and is a  
leader in church and Sunday-school  
work.

## STATE NOTES

The Wisconsin World's Fair commis-  
sion has decided upon the issuance  
of a finely illustrated 150 page book-  
let with which to advertise the state  
at the World's Fair next year.

An electrical storm of unusual  
severity passed over Sturgeon Bay last  
night, wrecking the residence of  
Jacob Zettie and damaging the tele-  
phone service.

Mr. and Mrs. John Dustin of Be-  
loft celebrated their golden wedding  
anniversary Monday.

Thomas Couch, colored, baggage-  
man at the Beaumont hotel in Green  
Bay for many years, has been com-  
mitted to the county poor farm there.

Miss Grace Hewara, for the last  
six years instructor at the Oshkosh  
Normal, has resigned and will teach  
music at the Trenton, N. J. Normal.

Sunday Chief of police Fred Rein-  
old and Policeman Paul Pabst raid-  
ed the house of John Wetelnik, a  
Slavonian, at Kenosha, who is al-  
leged to have been running a "blind  
pig" the last year. Twelve men  
were found sitting around the tables  
drinking.

Two unknown robbers, and a  
crowd of Italian laborers in the em-  
ploy of the Northwestern road fought  
a battle with fists and revolvers  
south of Kenosha.

The second annual debating con-  
test between Wisconsin and the Uni-  
versity of Minnesota will be held in  
Minneapolis Tuesday.

SITUATION AT BELOIT IN  
THE STRIKE SITUATION

Men of the Berlin Works Meet Ev-  
ery Morning and Afternoon  
at Labor Headquarters.

(Special to The Gazette.)  
Beloit, May 12.—The situation here  
remains the same. The management  
and the men are still standing on  
their original positions and it looks  
now as though the trouble would  
keep the factory closed all summer.  
The men are called to the labor head-  
quarters each morning and after-  
noon and the matter is discussed.  
This is done more with an object  
of keeping the men off the streets  
than in the hopes that the matter  
will be settled by a conference.

QUAGMIRE SWALLOWS  
TRAIN OF TWENTY CARS

Trestle Over Filled-In Bed Gives Way  
and the Rolling Stock Disappears  
From Sight.

Ogden, Utah, May 12.—Another train  
has been wrecked by the quagmire on  
the Lucien cut-off. Twenty cars fell  
into the morass while a train was  
passing over the permanent trestle.  
Five hundred feet of the trestle ad-  
jacent to the east shore of Great Salt  
lake sank under the weight of the  
train and the twenty cars were thrown  
into the filled-in grade. The trainmen  
escaped injury.

Several lives have been lost and two  
locomotives, as well as several cars  
have been swallowed up in the quag-  
mire since the railroad began to build  
the trestle. One portion of the road  
has given a great amount of trouble  
and has cost the company a large sum  
in the effort to bridge it. Apparently  
this spot has no bottom and engineers  
believe it marks a subterranean outlet  
to the lake.

English King with signals displayed,  
"Not under control; machinery dis-  
abled."

ROOSEVELT HAS  
ROYAL WELCOME

Students at Leland Stan-  
ford, Greet Him at  
the Depot with  
Many Cheers.

## DELIVERS SPEECH

Talks to University Audience  
at the College—On to  
San Francisco This  
Evening.

(Special By Scripps-McLain.)  
Palo Alto, Cal., May 12.—After a  
quiet night on the cars in which the  
president had his first good night's  
rest for some days the chief execu-  
tive left San Jose for San Francisco,  
where a big demonstration awaits.  
Students Welcome

Roosevelt was given a taste of  
what was before him when the train  
stopped at this city. He was greet-  
ed here by a committee from Leland  
Stanford university and the advance  
committee from San Francisco and  
eleven hundred students.

Addressed Students  
After a most enthusiastic greeting  
at the depot the party drove to the  
university where the students were  
addressed by the president. It was  
a large audience and the college yell  
was frequently given.

CONVICT LABOR  
LAW MAY BE VOID

Question of Its Validity Will Come  
Up on Omission of  
Word.

(Special to The Gazette.)  
Washington, May 12.—An adminis-  
tration official who has watched the  
postal scandal carefully in its various  
stages, and who has been in close  
touch all the time with high officials  
of the Postoffice department, thus out-  
lines the remaining results of the  
scandal and its investigation:

"Permanent removal of A. W.  
Machen, superintendent of the free de-  
livery division.

"Final resignation of George A. C.  
Christiansy, assistant attorney gen-  
eral for the Postoffice department, who  
was granted leave pending investiga-  
tion.

"A clean bill for M. W. Louis, super-  
intendent of the division of postoffice  
supplies."

No criminal actions are con-  
templated. This is said to be in ac-  
cordance with the wish of the Postmaster  
General, and, according to the official  
responsible for this outline the Presi-  
dent himself desires to avoid trial in  
court unless the most flagrant dis-  
honesty is proved in the investigation.

Drives Out Rings.  
The object of those responsible for  
the inquiry was the elimination from  
the Postoffice department of what was  
known as the Machen and Beavers  
ring. Mr. Beavers' ring resigned un-  
der fire, and it is said neither he nor  
Mr. Machen will return to the Post-  
office department. There is no desire  
to persecute the subordinates of these  
two men, and only in cases where they  
are found to have knowingly com-  
mitted fraud will summary action be  
taken. Meanwhile there will be a re-  
organization in the department of sal-  
aries and allowances and free de-  
livery.

The case of M. W. Louis differs from  
that of others suspected in that he was  
not considered a member of the spoils  
ring. According to an official familiar  
with the investigation a careful exami-  
nation of his division has not dis-  
closed any dishonest acts.

## ALFRED KNAPP TRIAL JUNE 16

Accused Says He Made Confession to  
Get Rid of the Police.

Hamilton, Ohio, May 12.—The trial  
of Alfred A. Knapp, the Indianapolis  
"Bluebeard," has been assigned for  
Tuesday, June 16. Knapp, who made  
a written confession of strangling five  
women and children, will be tried on  
a charge of choking his third wife,  
Hannah Goddard Knapp, and throwing  
her body in the river, whence it was  
recovered over two months later.  
Knapp has repudiated his confession  
and declares he wrote it only to get  
rid of the police and newspaper men  
who annoyed him by insisting on  
statements. He asserts that the po-  
lice have no positive evidence against  
him, and apparently feels assured of  
acquittal.

Appeal in Merger Case.  
Washington, May 12.—The North-  
western Securities case has reached the  
Supreme Court of the United States.  
The transcript of the record in its ap-  
peal has been filed.

Explosive From Greece.  
Constantinople, May 12.—The police  
have discovered that quantity of dynamite  
has reached Salonica, the scene  
of dynamite outrages a fortnight ago,  
from Greece.

MONEY FOUND  
IN AN IRON POT

Trusted Employee of the  
United States Express  
Company Confesses  
to the Crime.

## BURIED HIS COIN

He Took Twenty Thousand  
While Drunk, and  
Concealed It in  
a Cellar.

(Special By Scripps-McLain.)  
Philadelphia, May 12.—Acting up-  
on information obtained from Wil-  
liam Murphy, an express messenger  
the twenty thousand-dollar package  
missed from the local office here has  
been recovered from the place where  
Murphy hid it.

In a Cellar  
The money was found buried in an  
iron pot in a cellar where Murphy  
had hidden it. Only two hundred  
dollars was missing from the entire  
sum. Murphy has been employed  
by the company for fifteen years  
and is forty years old.

Murphy Arrested  
Murphy is under arrest. He says  
that he took the money while drunk  
and forced his sister to bury it in  
her cellar. He says the two hun-  
dred dollars missing he spent while  
drunk.

RESULTS OF THE  
POSTAL SCANDAL

Department Will Be Freed of Rings  
That Made Corruption  
Possible.

(Special By Scripps-McLain.)  
San Jose, Cal., May 12.—That the  
Pacific, the greatest of all oceans, in-  
evitably must pass under American  
influence during the present century  
was the declaration made by President  
Roosevelt in one of the brief speeches  
delivered during his trip north through  
California.

This statement was made in an im-  
promptu talk at Watsonville while the  
president was telling his hearers of  
the important part the people of the  
Pacific coast will play in the future  
of the nation. A number of brief stops  
were made during the day, and many  
points of interest were visited.

An ovation was tendered President  
Roosevelt on his arrival here. He was  
shown the most famous orchards and  
vineyards of this section of the state,  
and warmly expressed his apprecia-  
tion of the Santa Clara valley. At  
Campbell, where a large number of  
fruit growers and farmers had as-  
sembled, the president spoke a few  
words. The school children of San  
Jose were reviewed by him in front  
of the McKinley monument.

After thanking the officers and men  
of the Fifteenth Infantry for guarding  
his slumbers during his stay at Del  
Monte, the President boarded his  
special. At Santa Cruz he received  
a most hearty reception.

Children Wave Flags.  
With a large reception committee  
the President was driven along the  
city's most slightly avenues, which  
were crowded with immense throngs,  
thousands having come from miles  
around. His carriage was driven  
through an avenue of thousands of  
school children with waving flags, who  
scattered flowers along his pathway.  
In carriages following that of Presi-  
dent Roosevelt were Congressman  
Needham, Benjamin Ide Wheeler and  
President Butler of Columbia univer-  
sity. Flags were lavishly displayed.

DAUGHTER MUST WED A GERMAN

Peoria Girl Will Otherwise Lose Share  
of Father's Estate.

Peoria, Ill., May 12.—If Mary  
Schmidt marries a German she will  
be wealthy. If she should select an  
Englishman or some other than a Ger-  
man she will be cut off of her share  
of a large estate left by her father An-  
drew Schmidt. To get her share she  
must marry, for if she remain single  
she will not be considered in the dis-  
tribution. Schmidt was an eccentric  
farmer who was intensely loyal to his  
mother country.

## Name New Coins "Conants."

Washington, May 12.—In honor of  
C. A. Conant, financial expert, the peo-  
ple of the Philippines have given the  
name of "Conants" to the new silver  
pieces that are being coined by the  
United States.

## Infanta Is Recovering.

Madrid, May 12.—The Infanta Isa-  
bella, who was thrown from her horse  
and badly hurt, is progressing satisfac-  
torily. The Infanta's lip was badly  
split by the horse's hoof.

## Fever on Naval Ship.

New York, May 12.—Scarlet fever  
has broken out upon the receiving  
ship Columbia, at the Cob dock, New  
York Navy Yard. There are over  
1,000 sailors on board.

INSANE MEN ARE HELD  
TO POSTS WITH CHAIN

United States Marshal Discovers Pris-  
oners Who Are Fed From a  
Trough Like Hogs.

Bay City, Mich., May 12.—Deputy  
Marshal Tobias, while searching for a  
prisoner for the United States court  
in Cheboygan county, discovered two  
men chained in a shanty two miles  
from Patterson's mill on Mullet lake.  
Both men are under 30 years of age  
and are believed to be insane. They  
are kept shackled by the legs with  
chains about twelve feet long, fast-  
ened to a post in the center of the  
shanty, which is near a farmhouse.  
The chain permits them to get near a  
stove and a trough at one side of the  
room. Their food is thrown into this  
trough and the prisoners eat in much  
the same manner as pigs.

In the summer the men are chained  
to a tree. Nearby neighbors told the  
deputy that the men had been chained  
for several years and that they were  
generally docile. The deputy reported  
the matter to United States Marshal  
Bates, who said he would call the at-  
tention of Gov. Bliss to the case.

burgh.

Three Saginaw, (Mich.) aldermen,  
six ex-aldermen, and four other per-  
sons indicted for alleged bribery, or  
selling liquor without a license; elec-  
tric lighting and bridge contracts in-  
volved. Mayor Baum's administra-  
tion scored.

Dr. James Davidson, of Salt Lake  
City, Utah, started on a sixty days  
fast to cure asthma from which he  
has suffered for thirteen years.

## LEAVES HIS BRIDE PENILESS

Illinois Man Disappears at Same Time  
as Wife's Fortune.

Rockford, Ill., May 12.—Deserted by  
her husband and penniless among  
strangers, Mrs. William C. Templin, a  
bride of two months, has applied to  
the Rockford police for assistance.  
She was Miss Amanda Borms of Peo-  
tine, Ill., before her marriage and had  
inherited \$4,000. With her husband  
disappeared a certificate of deposit for  
\$2,900 and two notes for \$800 and \$300  
in cash belonging to the wife.

## GIRLS LEAP FROM THE FLAMES

Panic Among Workingwomen in Pitts-  
burg Factory.

Pittsburg, Pa., May 12.—During a  
fire in the Pittsburg Bedstead and  
Bedspring company's building, 133  
Water street, girls at work on the  
fourth floor became panic-stricken and  
three jumped from the window into a  
net held by the firemen. All were se-  
riously injured and were taken to the  
Homeopathic hospital. Their names  
are Alice Pron, Clara Smith and  
Annie White. It was reported that a  
number of others were missing, but  
all have been accounted for. The  
damage to the building and stock was  
about \$50,000.

## Smuggling Increases.

New York, May 12.—William H.  
Theobald, formerly a special agent  
of the Treasury department, is au-  
thority for the statement that more  
smuggling than ever before, especial-  
ly in precious stones, is now going on.

## Blazing Oil Covers River.

New York, May 12.—Explosion of a  
tank of crude oil in the Long Island  
City oil refinery plant spread 10,000  
gallons of blazing petroleum along the  
East River front in Long Island City  
and set fire to a lighter.

WILL PROMOTE  
CAPT. PERSHING

To Make Him Brigadier-  
General for His Va-  
liant Work in the  
Philippines.

## GALLANT SOLDIER

His March Through Mindanao  
Productive of Great Re-  
sults to United States  
Control.

(Special by Scripps-McLain.)  
Washington, May 12.—For excel-  
lent work done in Mindanao in the  
Philippines Captain John Pershing,  
Fifteenth cavalry, who has just com-  
pleted a most successful expedition  
against the Morros, is to be promot-  
ed.

Brigadier General  
Friends at the war department are  
urging that he be made a brigadier  
general this fall in appreciation of  
his gallant services. The idea is meet-  
ing with much favor and will prob-  
ably be carried out.

Only a Major  
Should Captain Pershing be pro-  
moted according to the line of his  
rank, he could only hope to be a ma-  
jor when he entered the age limit.  
This and his excellent work of the  
past few months will lead to his pro-  
motion.

SECOND COMPANY  
DISCLOSES PLANS

Rival to Traction Company for Fran-  
chises Proposed Novel In-  
ducements to Passengers.

One of the promoters of the South-  
ern Wisconsin Interurban company is  
inclined to treat the article pub-  
lished in last evening's Gazette, re-  
garding the proposed route of the  
Traction company, as a joke, and re-  
plies to it in the following humorous  
vein:

"The Janesville Traction company  
recently caused to be published an  
interview, which reads so much like  
a fairy tale, that the Southern Wis-  
consin Interurban company are in-  
clined to enter the arena in competi-  
tion.

"The fact may not be generally  
known but this enterprising company  
is authority for the statement that  
the sixteen passenger automobile is  
no myth. This modern vehicle will  
be used in Janesville and will make  
a gratuitous tour of the city every  
hour to gather passengers. It will  
also meet all incoming cars on the  
line and convey passengers to their  
homes free of charge.

"The company also proposes some  
changes in their route which, if car-  
ried out, will take in Milton and  
Milton Junction. They will strike  
Lake Koshkonong at Board's hotel  
where a rapid transit electric ferry  
will transport the cars to Newville  
at a 40-mile clip. This will give  
a bag of canvas-back without loss of  
time or the use of decoy. Game  
wardens will not be permitted on  
passenger trains.

"From Newville the line will visit  
the store at Indian Ford, where fish-  
ing tackle will be provided for all  
who desire to angle for suckers.

"Edgerton will be the next stop  
where connections will be made with  
a line to Albion. An effort will be  
made to popularize this quiet resort  
and with a 25-mile ticket will be  
furnished a pass to go through the  
academy where an education may  
be acquired while you wait.

"The next stop will be Stoughton  
and an observation car will be pro-  
vided for smokers. The weed will  
be furnished by the company for the  
entertainment of passengers.

"From Stoughton the company con-  
templates a tour of the Madison lakes  
which will be a most picturesque  
route. Summer campers will be left  
at their door each evening, and called  
for every morning. Tents will be  
provided for transit guests and every  
attention given to their comfort.

"An express train is scheduled at  
90 minutes between Madison and  
Rockford. This train will have the

## CITY DADS ARE LONG WINDED

COMMON COUNCIL HELD AN EXTENDED EVENING SESSION.

## THE STONE CRUSHING PLANT

Franchise Question Was Held Over—League Fund Divided Among the Ward Funds.

When the common council next meets it will be in a special session to talk of the stone crusher. That was the decision made by the council when it adjourned at eleven o'clock last evening, after a lengthy and apparently fruitless discussion of the subject. Not that the crusher plant was the only subject which came before the city fathers. City Clerk Badger said it had been years since he had last had so many petitions and accounts to present.

All of the aldermen had orders to present, and the major part of them occasioned calls for information from the newly elected members of the council. Much time was spent in discussing matters which in the past have been left in the hands of the standing committees.

**Conscience Fund Divided**  
Each of the ward funds will be given one-fifth of the \$300.70 placed in the hands of the city treasurer by the Municipal league. This disposition of the so-called "conscience fund" was made on recommendation of the finance committee.

City Attorney Burpee presented a written opinion on the payment of orders when the ward funds were charged against are destitute of money. He called attention to a section of the city charter which provides a fine of fifty dollars for each alderman who shall vote an appropriation under such circumstances.

Steps were taken toward a better system of bookkeeping for the city. As a starter every one presenting a bill against the city will be obliged to go to the city in duplicate. One of the bills will be filed in a public invoice book, which may be referred to by any citizen who desires to learn what the city is paying for. This will give the itemized accounts which the Municipal league considered so essential to economical government. A book of order blanks with stubs was also determined upon as one of the means of simplifying the city's business methods. Any one who draws an order for goods of any kind will be obliged to sign one of these blanks, and the stub will show the finance committee who was responsible for the order, and will enable them to keep a check on the unpaid bills.

**Funds Transferred**  
In order to replenish the general fund the following accounts were ordered transferred from special funds. Court St. special assessment, \$246.20. Court St. . . . . 1004.10. S. Jackson St. . . . . 199.58. Marion St. . . . . 21.50. Linden Ave. . . . . 266.57. Fifth ward . . . . . 29.41. Fourth ward . . . . . 26.88. Third ward . . . . . 26.88.

The sum transferred from the ward funds was in recompense for paying brick secured from the city. The sale of the Wall street and North Franklin street bonds was ordered.

A petition from Wall and High street tax payers who asked that they be recompensed by the city for added expense incurred through the suit started by Field Brothers against Brown and Connors, was referred to the judiciary committee who asked for more time to consider the petition.

By motion of the chairman of the finance committee the general bills presented two weeks ago, and the bills up to and including Saturday, were ordered paid.

Bonds were presented by T. S. Baker, J. W. Loudon, C. B. Conrad, E. H. Davies, and Dr. R. W. Edden, and approved.

The city printing contract was awarded to the lowest bidder, the Recorder.

**Monthly Reports Received**  
Reports from the municipal court, city treasurer, light inspector, and school board for the month of April were received. The committee on schools asked the board of education to submit an itemized account for all bills. The other reports were placed in the hands of the proper committees. The clerk was instructed to deduct from the electric company's bill for lights reported out.

Supt. Murphy of the Janesville Electric Railway company asked permission to construct a wire at the Myers house corner. The judiciary committee asked for further time to consider the petition.

The library board's petition for sidewalks and curbing around the Carnegie library was referred to the highway committee and left in their hands.

Instructions were given that the city water company construct needed mains for fire protection at no additional expense to the city. The representatives of the water company had notified the fire and water committee that it would require eight and ten inch mains and that they considered it right that the city should pay the additional expense involved by the use of that size instead of the six-inch mains.

If reasonable bids can be secured No. 2 hose carriage may be converted into a hose wagon. Bids were called for on the cost of conversion.

Until May 25th sealed proposals will be received to furnish the city with sewer pipe and lumber.

**Walks Ordered**  
A brick crosswalk was ordered constructed across the alley by No. 1 fire station. The property owners were ordered to build a standard walk along the east side of the Y. M. C. A. building to the Benison and Lane bakery. Orders were also passed calling for the repair and building of a large number of side walks to which the attention of the council was called by Sidewalk Inspector Ross. In case the orders are not complied with inside of twenty days the sidewalks will be built by

the city and the cost charged to the property owners.

A report on sewerage will be presented by the next meeting, said Aldermen Mills.

By an unanimous ballot Dr. S. B. Buckmaster was elected school commissioner-at-large to succeed S. C. Burnham, resigned. Dr. Buckmaster's bond was presented and approved.

**Stalls in Saloons**  
Chief Hogan recommended an ordinance prohibiting the sale of liquor in stalls in saloons. He considered it a source of much immorality, especially as it made it possible for women and young girls to enter saloons and be unnoticed. If drinking were prohibited except in the barroom, and the wine rooms and stalls abolished, he believed it would be of great advantage to the city. He advocated the passage of such an ordinance at once in order that the saloon keepers might have time to remodel their places of business before licenses are next granted.

It was recommended that John Dalton, the wagonman at the High street crossing be made special policeman without pay. The appointment will lie with the Mayor. Dalton desired the authority in order that he might have power to disperse troublesome characters.

Thomas Croft has been appointed, the park committee reported, to care for the parks of the city. He will receive \$40 a month and will have authority to engage needed help. The action of a committee of private citizens who have taken hold to raise needed money for park improvement will be under the approval of the committee on parks.

**Want New Street**  
A petition from Al Schaller and 24 other Third ward citizens to have Oakland avenue continued through to Ringold street was referred to the highway committee for later consideration.

William Dee was granted permission to erect a small building on West Milwaukee street within the first limits.

Orders were passed calling upon the city engineer to prepare grades for Palm street from Pleasant street to Center street; for Cherry street, the east side of Main street from Racine to Sharon; McKee boulevard from the Jackson street bridge to George place.

Street Commissioner Watson presented a voluminous report showing the condition of the streets of the city and the tools and other property owned by the city. The needed repairs of the bridges of the city are embraced in the report.

The reference made in the report to the condition of the stone crusher precipitated a lively discussion on that bone of contention. Half a dozen motions were made and all lost. The only point clearly brought out by the discussion was the ignorance of a number of members of the council of the actual condition of the plant. It was decided to meet again next Monday, simply to discuss this question, and in the meantime it was recommended that every one gain as much information on the subject as possible.

Orders were passed calling for the repair of Racine street, and the construction of gutters on Galena street. Claimed \$1,000.

The claim of Rose Davey for \$1,000 damages for injuries received because of an alleged defective sidewalk was taken under advisement by the judiciary committee.

The franchise application of the Janesville Traction company was taken under advisement by the judiciary committee.

The balance due James Rawson on the city hall contract was ordered paid. It amounted to \$303.88.

A lawn mower, apron, and shears will be purchased to trim the city hall lawn.

An ordinance introduced by Alderman Schwartz, requiring that all holes and trenches dug in the streets of the city be flushed with water before being refilled was the subject of some discussion. It was finally placed on its passage and adopted.

Ogden H. Fethers was given permission to use part of St. Lawrence place and Jackson street during the erection of a building.

The Southern Wisconsin Dental society was granted permission to use the assembly room of the city hall for their convention in this city, May 20 and 21.

On motion the council adjourned. Present: Aldermen Lowell, Sale, Mills, Connell, Judd, Matheson, Hemming, Schwartz, Murray and Schmidley.

**If the Baby Is Cutting Teeth**  
Be sure and use that old and well-tried remedy, MRS. WINSLOW'S SOOTHING SYRUP, for children's teething. It soothes the child, cures the mother, and is the best remedy for Diarrhea. Twenty-five cents a bottle.

## BELOIT HONORED BY "BIG NINE"

Can Send Athletes to the Conference Meet in Chicago on May 30.

Athletes from the Congregational college at Beloit will be admitted to the conference at Chicago of the "Big Nine" on Decoration day. This honor was bestowed upon the plucky little bunch of "comers" that wear the old gold at a meeting of the faculty committee of the Big Nine held in Chicago last night.

**Means Promotion**  
While Beloit has had many excellent track and weight men in the past they are not members of the Big Nine and this year there was a prospect that they would not be allowed to compete in the annual games. The decision last night removes all these fears and places the school among the list of favored ones who are members.

**Was a Surprise**  
The decision was a surprise as it was thought that Beloit would be classed with Drake and South Dakota institutions that have been refused permission to send competing teams.

## OPEN SHELVES FOR LIBRARY

BOARD MET YESTERDAY AND DECIDED QUESTION.

## MISS MARVIN WAS PRESENT

Met with Board and Decided the Question by Stating Her Own Experience.

An open shelf system was decided upon by the library board at their meeting yesterday afternoon. The committee which was appointed to get information on this subject asked Miss Marvin of the state library commission, to talk to the board on the different systems. Miss Marvin read reports from various eastern libraries that were all favorable to the open shelf, or "standard library" system.

**The System**  
This system, which incurs no extra expense, and which is now in general use in many libraries throughout the country, is as follows: Besides allowing the public access to all the shelves, for reference and reading, a special shelf is maintained, separate from the others, on which is kept a selection of the best books in the library. The public, looking for good reading, can find it in this standard library much more readily than when endeavoring to look through all the shelves. While the student or special reader can pick out books from the main library, on whatever subject desired.

**Special Shelf**  
This special shelf of the best books will probably be placed in the reading room. There will be about four or five hundred volumes kept there, which will be changed periodically.

**Merely Enlargement**  
This same idea has been in use in the past at the library so that the present plan is simply an enlargement of the old custom.

**Formal Opening**  
There is to be a formal opening of the new library in the near future, although the exact date has not been decided upon. The building will be kept open for several days for inspection by the public.

**New Registration**  
The board is planning to have a new card and registration system which if decided upon, will be in readiness by that time.

## SEASON OPENED MUCH TOO SOON

Fish in Madison Lakes Are Full of Spawn—Must Change Fish Law.

Sunday, May 10, opened the fishing season in the lakes about Madison and Stoughton. The shores were dotted with boats of fishing parties angling for the toothsome bass and wily pickerel. Reports from Madison show the following conditions: There were many large catches. Many of the fish were cut open to determine if the season is opened too early on the lakes and they were found to be full of spawn. It has been suspected for some time that this was the case.

**Too Late Now**  
The session of the legislature is so far advanced that probably nothing will be done this year to deprive Madison of an early fishing season, but if the experiments continue to demonstrate that the fish here have not finished spawning something will be done at the next session to make the opening on the Madison lakes at the same times as on other lakes.

**Lakes Mendota, Monona, Waubesa and Kegonsa** are teeming with fish of all kinds, a fact which has been discovered and demonstrated by the game wardens and others who have been selling for carp. Parous selling a week ago brought up at every haul, 200 and 250 pounds of bass of all kinds, black bass, white bass, little-mouth and big-mouth, many of which weighed three and four pounds.

**Large Pickerel**  
Many pickerel were found to amount weighing from 10 to 18 pounds. That they should be caught in such large numbers in seines is proof positive that they are to be caught later in the season when the food in the lakes is not so plentiful as at present.

## SUNDAY SESSION VERY INTERESTING

Y. M. C. A. Listened to Echoes from the Recent Convention at Topeka.

Reports of the returned delegates, from the Topeka (kan.) International convention of the Railroad Y. M. C. A. men, were listened to at the men's meeting Sunday afternoon.

The meeting was opened with a prayer by Dr. T. T. Richards. A large number of men took part among whom were F. F. Louis, E. D. Child, Anthony Wilkenson, H. G. Arnold, W. H. Blair, R. Tattalies, Henry Corsehan, Chas. Schultz, Fred Holden.

**Miller Spoke**  
Earl Miller, fireman on the U. S. road, a delegate to the convention, told of some of his experiences at the convention, and the things that interested him most. Among them was the special train of eleven coaches, that was furnished free by the Topeka road to carry delegates from Chicago and intermediates and return Mr. Miller was also greatly impressed by the hospitality and generous friendliness by the people of Topeka, to the visiting delegates—"they opened their hearts and gave the strangers the town," as he expressed it. He also spoke of the great and increasing interest taken by railroad men, in the Y. M. C. A. Mr. Miller shook hands with President Roosevelt at the convention, and said he considered it a great honor.

**Joe Shekey, engineer, who went as a delegate with Mr. Miller and Mr. Kline, was much impressed with what he saw and heard at the convention.**

**Kline's Talk**  
Mr. Kline, in his talk, emphasized the character of the convention meetings. He spoke of the devotion of services where a great enthusiasm was shown. Men in all departments of the railroad were there, attended these meetings and were anxious to take part in the discussions. Sometimes several would be standing, talking at the same time. Mr. Kline spoke of the wonderful increase in the attendance of railroad men at the noon meetings that are held in some cities. In Columbus, Ohio, the average attendance at these meetings is 300 men. He also told of the development of educational work in the evening classes, the study of steam, air power, and electricity. This great gathering of men at Topeka was the 11th International convention of Railroad Y. M. C. A. men. There were three representatives from England, two from France, two from Germany and one from Denmark.

**Meet To-night**  
This evening there will be a meeting of the local association. Election of directors and reports of officers will be the business of the evening.

**D. M. Barlass is home from New London where he was called by the illness of Prof. William Hamilton. Prof. Hamilton formerly resided here and his many local friends will be pleased to learn that his health is improving.**

**Miller's Bill Placing Premium on the Farmers' Pest Has Passed the Legislature.**

The fame of Assemblyman Herman Miller will go into history along with the extermination of the crow in Wisconsin. All of the best efforts of the Wausau statesman have been devoted to pushing his pet measure, the crow bounty bill, and when he finally got it through that body described by Assemblyman David Evans as "the slaughter-house of all good measures," the senate, he wisely refused to let it go back there for amendment, fearing that its real fate would be death. Mr. Miller denies and personal animosity to the crow, but says his farmer constituents want the bird exterminated because it eats their corn and other produce, and he proposes to observe their wishes. The assembly stood by him Saturday in refusing to return the bill to the senate, and it will become law unless it meets Governor La Follette's disapproval. As passed it requires county boards to provide a bounty for crows, 10 cents for old birds and 5 cents for young. It was the compulsory feature of the bounty that the senate said it wanted to change.

**MILTON**  
Milton, May 12.—The second of a series of three games between the college baseball club and the Crescent Athletes was played here on Friday.

At the end of the fourth inning the score stood 9 to 4 in favor of the Crescents, six of the number being accumulated in the first inning.

The college boys were certainly up against heavy odds, but soon demonstrated that they were not "quitters."

By the same steady and determined spirit which has characterized their playing this year, they went pull a victory out of almost sure defeat.

and undoubtedly would have succeeded had not Hincarey relieved Cole in the box, the latter part of the game.

As it was the college boys gave the six "koonse-eggs" and scored seven runs bringing the final score up to 9-7.

This decided change of affairs created much excitement, many pronouncing this the most interesting game played here for years.

As the college boys won the first game, the two clubs will play off the third game of the series soon, to decide which is the better team.

## THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain permanently to universal acceptance. However loudly heralded, they may not hope for world-wide preeminence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting, enjoying and learning the real worth of the choicest products. Their commendation, consequently, becomes important to others, since to meet the requirements of the well informed of all countries the method of manufacture must be of the most perfect order and the combination the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician who is well informed and he will answer at once that it is an excellent laxative. It is at all eminent in his profession and has made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually, when a laxative is needed, without any unpleasant after-effects. Every well-informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it, at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only; the name of the remedy, Syrup of Figs and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

## PRACTICAL EDUCATION

Mr. R. J. Crane, of Crane & Company of Chicago, one of the largest manufacturing concerns in the country, has taken an active interest during the last year in pursuing an investigation as to the utility of an academic or classical education for young men who have to earn their living, and who expect to pursue a commercial life.

Mr. Crane maintained in a little booklet issued last year, that the time spent in acquiring a college education for business life, was wasted. His company employs 3500 men, and he wrote and reasoned from the standpoint of a business man. His plain statement of facts called out more or less criticism from educators, and this inspired him to continue the investigation.

As a result of his work he has recently issued a second edition of his booklet in enlarged form. It contains something more than 100 pages, and contains a great deal of valuable information. Among other things a series of letters from college presidents in answer to a series of questions sent out by Mr. Crane. These letters are principally noted for vagueness and ignorance concerning practical life.

The booklet also contains letters from college graduates and prominent business men, that are both interesting and instructive. In all this varied correspondence, Mr. Crane remains of the same opinion still, and does not hesitate to maintain that a boy who enters the factory, store or business office, at from 16 to 18 years of age, is more likely to succeed than the college graduate, who takes up active work along the same lines, from four to seven years later.

There is nothing said about the price of the book but the Gazette infers that it is for gratuitous distribution. It is well worth reading, and a letter addressed to Mr. H. P. Bishop, Mr. Crane's secretary, will doubtless secure a copy.

It is one of the hopeful signs of the times that the question of a practical education, is receiving attention. Education means so much more than simply a knowledge of text books that the practical side of it is frequently overlooked. The freeman who sits in the cab, opposite the old engineer, absorbing practical knowledge, until ready for his examination, develops into a full fledged engineer, and he works out his destiny, without question as to ability, until he passes over the line known as the age limit.

The boy with the broom, if alert and ambitious, advances to care of the stock, and so on through the departments, and if he is ever to amount to anything as a business man, he is marked for promotion before the age of twenty-five, or about the time the college boy is ready to commence. He has had the corners rounded up by contact at an age when corners can be rounded, and he graduates from the school of experience, an educated merchant.

In the professions, a college education is necessary to the highest order of success, and in the semi-professions, such as engineering, mining, and electrical engineering, the scientific course is next to indispensable, but the young men who enter these channels are but a fragment as compared with the great army who enters commercial and industrial life. The weakness of our educational system, is not with the college, but it rests with the high school where the course of study is planned with reference to the five per cent who graduate, and with but little regard to the 95 per cent who never go beyond the common school.

The three Rs that are so frequently banished by educators, are neglected and the boy is loaded up with a lot of facts that are of no earthly use to him.

His first practical lesson in the business office is composition, spelling and penmanship, all of which he should have acquired in the school.

Mr. Crane is doing good work along the lines of practical education. He has discovered that knowledge without the ability to apply it, is more ornamental than useful. No new discovery, but a fact that can always be emphasized.

## THE TIDE OF IMMIGRATION

It is estimated that 800,000 immigrants will contribute to the increase of American population this year. While it is gratifying to know that the advantages offered by this free land are proving so attractive to other nations, there is an element of danger connected with the movement this year, that should not be overlooked.

Three countries, Italy, Russia and Hungary are furnishing the bulk of immigration at the present time, and the class of people they are sending to our shores are of the most undesirable class. It is estimated that 50 per cent of them can neither read nor write, the language of the mother country, and it is reasonable to suppose that but little effort will be made to acquire the language of their adopted country.

Twenty-five per cent of this mass of ignorance is dumped upon the state of New York, and a large majority of it upon the metropolitan city. In analyzing statistics, some writer, has recently discovered that the voting population of New York City is controlled by foreign born citizens. This is true of all large cities, except Philadelphia, but its more of a menace to New York than any other city because it is the port of entry, where armies of this class of people are grouped in communities by themselves. One block in the Italian quarter has a population of 40,000. That means a little city by itself.

It is a well known fact that a large majority of these people are taken into our body politic, and voters given the right of suffrage long before they possess the first elements of citizenship, and it is not at all surprising that corruption prevails in our large municipalities, neither is it surprising that socialism and anarchy are on the increase.

Our laws on literacy need a thorough revamping. There is no reason why an ignorant foreigner who is shipped to this country at the expense of his own country for the sole purpose of getting rid of him should be given the right of suffrage, until he has been here long enough to become Americanized, and until he is able to read and write the language of the country.

The South is upheld by many people in the north for disfranchising the negro, and yet the negro is as an American born citizen, and the race possesses more intelligence, than a majority of the immigrants that are coming to our shores today.

There is something radically wrong in existing conditions. The dynamite boom that was found on the wharf, as the liner Umbria was about to sail, the other day, was of foreign production, at least so far as the brain that contrived the damnable plot was concerned, and yet it is safe to say that these disciples of Herr most, are full fledged Americans citizens, clothed with all the authority that this high honor confers.

The man that is content to work for seventeen cents a day in Russia, becomes a labor agitator before he has been in this country five years, and preaches the doctrine of socialism or red handed anarchy.

The next congress can not do better work than to pass some stringent laws, regulating this class of newcomers. The nation is confronted with a problem that requires statesmanship of high order to settle. It is no small task to assimilate and Americanize the offscouring of humanity from across the seas, and especially when half of the number that come to us, as they are they coming this year, are in dense ignorance.

## SOME IMPORTANT CHANGES

The following is a synopsis of a ruling of the United States Supreme court in important cases regarding newspaper subscriptions:

"1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.

"2. If subscribers order the discontinuance of their periodical the publisher may continue to send them until all arrearages are paid.

"3. If subscribers neglect or refuse to take their periodicals from the postoffice to which they are directed they are responsible until they have settled their bills and ordered the paper discontinued.

"4. If subscribers move to other places without informing the publisher, and the papers are sent to the former address, subscribers are held responsible.

"5. The courts have decided that refusing to take periodicals from the office or removing and having them unclaimed for, is prima facie evidence of intentional fraud.

"6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it and the subscriber be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

"7. The latest postal laws are such that a newspaper publisher can arrest any one for fraud who takes a paper and refuses to pay for it. Under the laws the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or, orders the postmaster to mark it 'refused' and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft."

So much has been said about the liability of newspaper patrons, and the rights of the publisher, that the above supreme court rulings, are of interest. The method of dealing with publishers is made very plain, and if the rules were observed, much annoyance would be prevented, and a liberal amount of money saved.

## A BOOMERANG.

The governor's last message, when analyzed, amounts to nothing more or less than a political boomerang. The state board of control recently advertised for bids for coal, for the several state institutions. The bids contained the following safety clause:

Prices given at f. o. b. cars based on present tariff rates as given by the railroad companies, subject to ruling of interstate commerce, as regards freight rates, also subject to ADVANCE OR DECLINE.

Printed in red ink at the bottom of the sheet on which this bid was written is the following condition:

All quotations and contracts made subject to contingencies of strikes, advance in mining or railroad rates, or any other cause beyond our control.

The latter clause appears on the printed stationery of an Illinois company, and applies to all states where the company does business. It has no reference to Wisconsin, and there is nothing new or startling about the conditions. All shippers are accustomed to this class of contracts, and they are as common as the bills of lading.

The governor is wise beyond his day and generation. He is evidently looking for trouble, and when a man takes up that sort of a mission he is usually successful. A legislature can well afford to ignore the message, as it did the volume of 187 pages recently issued on the rate commission. More business and less politics is what the people are looking for just now, and an early adjournment is in order. Crops are waiting to be cultivated, and "time and tide waits for no man."

America produced last year, \$200,000,000 in gold. The nation now has in circulation over one billion dollars in gold coin. This represents 42 per cent of the entire circulating medium. The per capita circulation has increased in seven years, from \$21.65 to \$29.58. This is a healthy showing.

## WAR DECLARED

War on Epilepsy, Fits, Falling Sickness, St. Vitus Dance and Cataplexy.

I, George E. King, believe that I have found in Dr. Lindley's Golden Remedy a cure for the above named diseases, and I want every one in Janesville or vicinity that suffers from the afflictions to try this wonderful remedy at my expense.

In order that you may do this I propose to give absolutely free to every one so afflicted that will call at my store tomorrow, May 13, 1903, not a sample bottle but a full sized \$1 bottle. This will enable you to give the Golden Remedy a thorough test, and I believe will convince you beyond a shadow of a doubt that this remedy will surely cure you so you will stay cured. If you read this article and do not suffer yourself, but know of some one that does, you will be doing a Christian act by calling their attention to the matter.

It gives me great pleasure to make this announcement for I have long sought for a remedy of this kind. I remember the full-sized bottle free tomorrow, May 13, 1903, only.

## PICNIC PLANS OF MODERN WOODMEN

PROGRAM FOR JUNE MEETING ARRANGED FOR.

### A PLEASANT DAY PROMISED

Parade, Fire Run, Games, Speaking and Horse Races Are Among the Features.

Plans for the annual picnic of the Northern Illinois and Southern Wisconsin Woodmen of America were completed at a meeting of the executive and special committees held last evening. The speakers were announced, prize list completed, day's program laid out, and line of march fixed. The speakers will be the Hon. J. G. Johnson of Kansas, Mayor A. O. Wilson and M. G. Jeffris. The program will be as follows:

**Program of Day**  
10:30 a. m.—Parade.  
12 m.—Dinner.  
1:30 p. m.—Fire run West Milwaukee street.  
1:45 p. m.—Tug of War.  
2:00 p. m.—Speaking Court House park.  
Singing by Y. M. C. A. quartet of Rockford.  
Horse Races at Fair Grounds.  
2:45 p. m.—Drill contest in front of city hall.  
3:00 p. m.—Ball game between Rockford and Bloomington.

**Line of March**  
The parade will be formed under the direction of Grand Marshall of the Day John L. Fisher, near the depot on Wall street. Thence the march will be as follows: West on Wall to Marion, south on Marion to West Milwaukee, east on Milwaukee to Main, north on Main to Prospect avenue, east on Prospect avenue to Bluff, south on Bluff to East Milwaukee, west on East Milwaukee to South Main, down South Main to Racine and counter-march to the Court house park.

**Prizes Offered**  
Best decorated float, \$15; most comical float, \$10; best band, \$25; best M. W. A. drill team, \$75; second M. W. A. drill team, \$50; third M. W. A. drill team, \$25; best Royal Neighbors drill team, \$25; second Royal Neighbors drill team, \$15; best decorated store front and windows, \$15; second best decorated store front and windows, \$10; third best decorated store front and windows, \$5; tug of war between Wisconsin and Illinois, first prize, \$12, second prize, box of cigars.

**Cadets as Escort**  
The Christ church Cadets are to act as escort on the line of march. One of the features of the day is to be an exhibition run by the fire department. Word has been received from the Rock Island camp saying that they are coming with a special train. This is the greatest distance they have ever travelled to a picnic.

### REPORTORIAL GLEANINGS

**Class Song Written:** Miss Nettie Holt has composed and arranged the class song of the graduating class of the high school, and rehearsals will begin shortly.

**Early Morning Blaze:** A still alarm called out the fire patrol, the chief, and a couple of men Monday to quench a blaze at the home of Harry Carter, where a stove had been placed too near a partition. The damage was slight.

**Meet Wednesday:** The primary department of the Presbyterian church will hold their annual missionary social in the church parlors on Wednesday from three until five-thirty.

**Travelled 5,000 Miles:** G. Bailey, of Fort Atkinson was in the city yesterday with a handsome red auto, made by the amble works. This is the third machine, which Mr. Bailey has operated this year, as he has already travelled about 3,500 miles on it. His total mileage for the year has passed the fifth thousand. He has covered the state from Green Bay to La Crosse and all the cities of the southern and eastern part of the state.

**Will Give Concerts:** Supt. Showalter will take four members of the orchestra of the state school for the blind, to Jefferson tonight, to give the first of a series of three or four concerts which have been arranged by Gustave Kusterman of the state Board of Control. Messrs. Parrish, Goetzinger, Carter and Lange will give the concert.

**Beloit Drunks Here:** With each succeeding Sunday, especially now that summer is approaching, the number of Beloiters who visit Janesville with the apparent purpose of becoming intoxicated seems to become larger. Most of them come loaded down with bottles. The late cars back to Beloit are laden with young men in an advanced stage of intoxication.

**Paving Nearing Completion:** The streets which were included in the Brown and Connors paving contract, are gradually nearing completion. Having the work interrupted by the winter has proved a costly proposition for the contractors as many repairs have been necessitated which would not otherwise have been required.

**In Justice Court:** Case of F. A. Taylor versus E. M. Calkins, garnishee, Thomas Finnegan, Joe Donahue and Patrick Cullen interpleaders that was set for this morning is to be decided Thursday at 2 p. m. Mrs. Christiana Crall is spending a few days with her daughter, Mrs. F. W. Christman, at Oshkosh, Wis.

**Appleton Team:** "Bill" Merrill and the Appleton baseball team were in the city this noon on route to Beloit where they this afternoon cross bats with the Beloiters. Merrill said that his men are strong in the defensive but have difficulty in finding the sphere.

**Use Side Track:** The cars on the suburban road today began the use of the new side track, and the time of departure was changed to fifteen minutes after the hour, the time of arrival being fifteen minutes before the hour.

### FUTURE EVENTS

Annual Y. M. C. A. meeting to-night.  
Reception at Baptist church to-night.

**Miss M. A. O'Neil,** of Simpson's millinery department attended the summer openings held yesterday in the various Chicago millinery houses. A handsome show case has been installed at the D. J. Luby & Co. store, adding much to the interior appearance of this popular shoe house.

**James Buchanan** left this morning for his cottage at Lake Koshkonong where he will fish and enjoy himself for a week. Several Janesville business men will be his guests during the week.

**Senator and Mrs. Frank Payne** of Pueblo, Col., are the guests of Mrs. Payne's sister, Mrs. Fred Smith.

**Many Are Coming:** S. M. Fisher received word from Freeport to the effect that three special trains will come from that city and that not less than 1,000 to 2,000 people from that city are expected to attend the M. W. A. picnic on June 4. Darlington also expressed its determination to make a good showing.

**Manager Myers** spent yesterday in Brodhead and Monroe where preparations are being made to send a large delegation to witness one performance at the opera house Monday evening. The advertising matter which has been placed in the windows of the city, presenting a full length view of Effie Ellsler, the attraction on that date, is one of the handsomest things that has been used by any company playing here this season.

### CITY DEATH ROLL

**Mary E. Sallee**  
Mary Elizabeth Sallee, one of the patients at the county asylum, died yesterday noon. Her home was at South Wayne, Lafayette county, Wis. She had been an inmate of the asylum for the past five or six years and was about sixty-five years of age. The funeral and interment took place this afternoon at the county farm.

**Mary Reddy**  
This morning at 11:30 occurred the death of Mary A. Reddy, wife of Andrew W. Reddy, of heart disease. The deceased was born in Amsterdam, N. Y., her maiden name being McDonald and she with her husband came west and settled in Janesville in 1859, from Rome, N. Y. Beside a sorrowing husband she leaves one daughter, Cornelia Reddy, three sons having preceded her to the other world. The funeral will be held on Thursday afternoon at 2:30 and will be private.

**Patrick Shields**  
The funeral of Patrick Shields was held this morning at 9:30, at St. Patrick's church, the Reverend J. J. McGinnity officiating. Burial at Mt. Olivet cemetery. The pallbearers were John Jungblut, John Birmingham, Patrick Gagan, Wm. Brothers, John Cullen and George Cullen.

**Ferdinand Pape**  
Ferdinand Pape, 59 years of age, for the last twenty-five years a resident of this city, died last night at 7:45, at his home, 402 South River street. He leaves five children, Bertha, Martha, Ellen, Willie and Otto. The deceased had a large circle of friends and acquaintances who sympathize with his family in their bereavement. Notice of the funeral will be given later.

**The Empress as a Cerack.**  
The strenuousness which marks the life of the German emperor is being slowly extended to other members of his family, and now the empress is going to attend special rehearsals of all new plays presented at Berlin theaters, and such as she does not approve of will be forbidden. In the present state of the drama industry the duties of the European empress will surely be found arduous.

**Medal for Mathematicians.**  
Karl Oscar of Sweden has presented a gold medal for award every fifth year to the world's most prominent mathematician.

## ENTERTAIN NEW CHURCH MEMBERS

Leaders of the brickmakers of Pittsburg claim that 20,000 men are out as a result of the strike ordered Saturday.

Striking longshoremen at Montreal have accepted the terms agreed on at a meeting of representatives of both sides. They are given a 20 per cent. increase in wages.

Attempts to start the Evansville, Ind., furniture factories yesterday proved a failure, most of the strikers refusing to work until the manufacturers accept their propositions.

The union employees of the St. Louis Transit company are voting on the advisability of demanding recognition of the union, a revision of hours and wages and arbitration of all differences.

Two hearings of the habeas corpus proceedings of John Lang and Stewart Hurt, indicted in Raleigh county, West Virginia, for killing the striking miner, John Harless, was begun before Judge Jackson at Charleston yesterday.

Three contractors in charge of government excavating work at Washington have been arrested on the charge of violating the eight-hour law. They are accused of working negroes ten hours a day and discharging them without paying them.

### FISHER TO INDIANAPOLIS

Will be Sent by M. W. A. to Head Camp Meeting in June.  
At a meeting of the Modern Woodmen of America held last evening it was decided to send S. M. Fisher to Indianapolis next June to attend the annual convention of the clerks and head camp of the order.

**RAILWAY NOTES**  
Forty trout were contributed by the state fish hatchery at Madison for the fountain in the North-Western roundhouse park.

Work has been begun, gravelling up approaches to all bridges between Janesville and Evansville. This would indicate that there is prospect of a double track.

C. E. Dougherty, fireman on the North-Western, between this city and Beloit is off for a few days.

**Half Rates to Annual Meeting of German Baptist Brethren** at Bellefontaine, Ohio.

## PURE FOODS AT HIGH SCHOOL

DOMESTIC SCIENCE DEPARTMENT PLAN NOVEL EXHIBIT.

### PARENTS TO BE INVITED

Miss Aline Thayer Will Have Entire Charge of the Menu for the Occasion.

Proteid, fat, and carbohydrate percentages will be set forth on a little "dietetic schedule" which will accompany each article of food in an exhibit now being planned under the supervision of Miss Aline Thayer, instructor in domestic science in the high school. Every egg will be beaten, every toothsome preparation stirred, by some member of the four classes—eighth grade first year, second year and third year—which comprise the department.

**Not Set Yet**  
Just when the exhibit will take place is not known definitely. It probably will be on a Saturday, and within two or three weeks. Its purpose is to acquaint the parents, and especially the mothers, of the pupils who are under Miss Thayer's oversight with the work which is being carried on. They will be invited to look over the articles of food—perhaps half a hundred varieties—to partake of dainty refreshments, and perhaps to purchase the same articles when they have served their original purpose of demonstration.

**Models Prepared**  
Model meals will be prepared, and tables set to indicate the latest work of science and good taste in regard to the culinary arts. Each of the pupils will have some part of the preparation of the articles of exhibit, and they will be unassisted. In addition to the model meals exhibit, a number of dainty desserts and other "pure food" dishes will be prepared.

## ...Forty Years Ago...

Janesville Daily Gazette, Tuesday, May 12, 1863.—The reported capture of Richmond is contradicted at Washington—so says the New York Post. The rebels left the dead and wounded in our hands; they are retreating southward. General Hooker is across the river, pursuing the rebels, and the next fight is expected to take place near Pamunkey.

North Wing of the Capitol.—The lowest bid for erecting the north wing of our state capitol, and laying the foundations for the remainder of the building, was that of James Lysey of Madison, amounting to \$50,850. Most of the bids were below \$55,000.

The president has approved the sentence to hang two rebel spies in Kentucky.

Fire.—A dwelling house on the corner of Bluff and North First streets, belonging to the Cushman estate, was partially destroyed by fire last night.

Union Men Scalped in North Carolina.

### WHY ENGLAND IS PEACEABLE

Food Supply of the Nation a Safe-guard Against War.

The huge problem still remains—not, is it the right thing to do to give our cavalry swords or rifles? not, shall we pay our private soldiers 1 shilling or 3 shillings a day? not, shall we require this or that qualification from division officers? but, can we make war? Can we engage in war with a power or powers as we were able to engage in wars in the early years of the last century and even so late as fifty years ago? asks the London Spectator. The question, we acknowledge, looks at first sight absurd. "Of course!" would be the answer of the music halls, and in certain respects the answer of the music halls is a valuable answer.

We have to remember that the economic conditions and questions affecting that nation have altered during the last fifty years. A country which goes to war has to consider not only the provisions of the army engaged in fighting its battles, but also the provisioning of the population which it maintains at home. At the time of the Crimean war, we had a population of something under 30,000,000 and we had about nine months' supply of corn—to be bought at a price; but at one time the price of corn during the Crimean war rose to 52 shillings a quarter. Today we have a population of over 40,000,000, we grow less corn than we did fifty years ago and if we had to depend for our food upon the supply of corn within our shores we should have only three months' supply upon which to draw, unless, of course, we could get more from outside.

The question then baldly stated—there being a great difference between 30,000,000 to feed and nine months' supply of corn and 40,000,000 to feed and only three months' corn—is whether we can still contemplate the possibility of war with a great naval power in the same spirit as that in which we have contemplated it in the past?

### PEOPLES DRUG CO'S PERSONAL GUARANTEE.

Given to Every Purchaser of Hyomel—Cures Catarrh or Money Back.

Hyomel is not a patent medicine; Hyomel is not a rheumatoid concoction; Hyomel is not the result of chance. This unique treatment for the cure of catarrh and other diseases of the respiratory organs only came after years of study and research, and is the result of scientific knowledge, used in a common sense way.

Catarrhal germs have their life and produce their poison in the mucous membrane of the air passages.

Health cannot be secured unless those germs are destroyed, and this cannot be done by stomach dosing.

Hyomel destroys all catarrhal germs in the head and air passages, soothes and heals the mucous membrane, irritates by catarrhal poison. It is the simplest and most convenient of all remedies for catarrh.

The complete outfit costs but \$1.00, and consists of a neat inhaler that can be carried in the purse or vest pocket, a medicine dropper and a bottle of Hyomel. If one bottle does not cure, extra bottles of Hyomel can be obtained for 50c.

Peoples Drug Co. have so much faith in this method of treatment that they guarantee Hyomel to cure catarrh or they will return the money.

Many of the best physicians in Janesville recognize the scientific value of Hyomel and prescribe it in all troubles of the respiratory organs.

Breathe Hyomel for a few minutes four times a day, and your catarrh will soon be cured. If it is not, Peoples Drug Co. will refund your money without hesitation.

## Best Spring Remedy Ever Formulated

## Paine's Celery Compound

Miss E. W. Swan Completely Cured of Terrible Blood Troubles That Doctors Could Not Relieve.

In the month of May, it is an absolute necessity that the body should be furnished with a richer and purer supply of blood for the establishment of a health that can successfully cope with the enervating effects of hot summer weather. Poor blood in May produces listless, ambitionless sleeplessness, and sallow faced men and women, who quickly become victims of some organic disease that end life. Intelligent people recognize the necessity of cleansing and fortifying the system in May by using Paine's Celery Compound, which speedily removes all poison from the system, and gives to the thin, watery blood a larger proportion of red corpuscles and arouses all the organs of the body to healthy action. Paine's Celery Compound does a work for victims of impure blood that commands attention of the most eminent medical men in the world. Mrs. E. M. Swan, Stanford, Conn., says:— "Before I began taking Paine's Celery Compound, my blood was in a very bad state, and I had three large abscesses under my arm which completely disabled me from work or even dressing myself. At last I was compelled to have the abscesses opened, when my eczema became worse than before. I tried everything that I could hear of, and also had several of the best doctors, but they did not cure me. I then commenced the use of Paine's Celery Compound, and before I had finished the second bottle my abscesses had all healed, and the eczema was almost gone. I am now on my fourth bottle, and am more than happy to say that I have not a pimple or any sign of eczema on my body. I am thankful for the great work that Paine's Celery Compound has done for me."
